

**List of master courses at the University Ss Cyril and Methodius which students
from the University of Florence may attend
(courses are available both in winter and summer semester)**

1. Numerical and Optimization Methods in Environmental Engineering
2. Environmental Systems Analysis
3. Environmental Protection in Energy Production
4. Water and Wastewater Treatment Plants
5. Environmental Fluid Mechanics
6. Automation in Environmental Processes
7. Environmental Monitoring Systems
8. Renewable Energy Technologies
9. Environmental Risk Management
10. Environmental Impact Assessment and Management
11. Selected Topics in Mathematics and Informatics
12. Modeling and Simulations of Energy Systems
13. Advanced Course in Energy Transformation
14. Waste Management
15. Design of Fluid Conveying and Hydro Power System
